- Green Light: Proceed through the intersection, but watch for pedestrians and other vehicles.

Important Traffic Signs in Chapter 9

- Stop Sign: Requires drivers to come to a complete stop, yield to other vehicles and pedestrians, and proceed when safe.
- Yield Sign: Drivers must slow down and yield the right-of-way to other road users.
- Pedestrian Crossing Signs: Alert drivers to areas where pedestrians may be crossing and require caution.
- Speed Limit Signs: Indicate the maximum legal speed in different zones.

Sharing the Road Responsibly

Pedestrians

- Always stop when pedestrians are crossing at marked crosswalks.
- Be especially cautious in school zones and residential areas.
- Yield the right-of-way to pedestrians at crosswalks, regardless of traffic signals.

Cyclists

- Allow at least 3 feet of clearance when passing cyclists.
- Be aware that cyclists have the same rights and responsibilities as motor vehicle drivers.
- Check for cyclists before turning or opening vehicle doors.

Motorcyclists

- Maintain a safe following distance.
- Be aware that motorcyclists are more vulnerable in collisions.
- Use extra caution when sharing lanes and overtaking motorcyclists.

Other Drivers

- Maintain safe following distances to prevent rear-end collisions.
- Use signals to communicate intentions.
- Be patient and courteous, especially in congested traffic.

Safe Driving Techniques and Defensive Driving

Always Stay Alert

- Avoid distractions such as cell phones, eating, or adjusting the radio.
- Scan the road ahead, behind, and to the sides frequently.

Maintain Proper Speed

- Follow posted speed limits.
- Adjust speed according to road conditions, weather, and traffic flow.

Following Distance

- Use the 3-second rule: pick a fixed object and ensure your vehicle passes it at least 3 seconds after the vehicle in front.
- Increase following distance in poor weather or heavy traffic.

Approaching Intersections

- Slow down and look both ways before entering.
- Yield to pedestrians and vehicles already in the intersection.
- Be prepared for sudden stops or unexpected hazards.

Answers to Common Chapter 9 Review Questions

Below are typical questions from Chapter 9 along with detailed answers to reinforce your understanding:

- **What should you do when approaching a red traffic light?**

Stop completely at the stop line or crosswalk. Remain stopped until the light turns green. If you are turning right at a red light and there is no sign prohibiting it, you may do so after making a complete stop and yielding to pedestrians and other vehicles.

- How should you respond to a pedestrian crossing sign?

Slow down and be prepared to stop. Always yield the right-of-way to pedestrians crossing or waiting to cross at marked or unmarked crosswalks. It is your legal and moral responsibility to ensure pedestrian safety.

- What is the importance of maintaining a safe following distance?

Maintaining a safe following distance allows you enough time to react to sudden stops or hazards ahead. It reduces the risk of rear-end collisions and provides space for emergency maneuvers.

- Describe the proper procedure for passing a cyclist safely.

Ensure there is enough space—at least 3 feet—between your vehicle and the cyclist. Signal your intention and pass at a safe and legal distance, reducing your speed if necessary. Do not honk aggressively or attempt to pass in unsafe conditions.

- What should you do if you encounter a school bus with flashing lights?

Stop completely and remain stopped until the bus's lights stop flashing and the stop arm is withdrawn. This rule applies whether you are approaching from the front or rear of the bus, as children may be crossing or boarding the bus.

Important Tips for Success in Chapter 9

- Review all traffic signs and signals regularly.
- Practice defensive driving techniques.
- Understand your responsibilities as a driver to promote safety for all road users.
