What Is a Traverse Booking Sheet?

A traverse booking sheet is a structured document that records the measurements and calculations taken during a traverse survey. A traverse itself is a series of connected survey lines, measured to determine positions and angles between points. The booking sheet acts as a ledger that documents each station, measured distances, angles, and computed coordinates, forming the backbone of accurate spatial data.

Key Components of a Traverse Booking Sheet

- **Station Points:** Markers or reference points along the traverse route.
- **Angles:** Interior or exterior angles measured at each station.
- **Distances:** Lengths of traverse sides between stations.
- **Coordinates:** Computed X and Y positions of each station.
- **Corrections and Adjustments:** Adjustments made for instrumental errors.
- **Notes and Remarks:** Additional observations or anomalies encountered during measurement.
