Example 2: Compare a command economy and a market economy.

Answer: A command economy is characterized by government control over resources and economic decisions, with central planning guiding production and distribution. Market economies tend to promote individual freedoms and efficiency but can result in inequality and economic fluctuations.

Example 3: Discuss how authoritarian regimes maintain control.

Answer: Authoritarian regimes maintain control through various means, including censorship of the media, suppression of political opposition, use of propaganda, and sometimes violence or intimidation. Leaders often consolidate power by limiting political freedoms, controlling the judiciary, and restricting civil liberties. These tactics help prevent dissent and ensure the regime's stability, but they often come at the expense of human rights and democratic principles.
