- Raising capital for clients through equity or debt issuance
- Providing strategic advisory services on mergers, acquisitions, and restructuring
- Facilitating trading of securities and other financial instruments
- Managing risk and offering financial research and analysis

The Core Functions of Investment Banks

Understanding the core functions of investment banks is essential to grasp their strategic importance. These functions can be broadly categorized into three main areas:

- Capital Markets Activities

Investment banks act as intermediaries between entities seeking capital and investors willing to provide it. They help clients tap into the financial markets through:

- Equity Capital Markets (ECM): Assisting companies in issuing shares to raise equity capital via Initial Public Offerings (IPOs) or secondary offerings.
- Debt Capital Markets (DCM): Facilitating issuance of bonds or other debt instruments to secure debt financing.

The Investment Banking Process

Investment banking transactions are complex and involve multiple stages, each critical to ensuring a successful outcome.

Step 1: Client Engagement and Pitching

The process begins when an investment bank is approached by a client seeking advice or capital. The bank conducts preliminary analysis and presents a pitch outlining how it can assist.

Step 2: Due Diligence and Valuation

Once engaged, the bank performs comprehensive due diligence, analyzing financial statements, market conditions, and strategic positioning. Valuation techniques such as discounted cash flow (DCF), comparable company analysis, and precedent transactions are employed to determine fair values.

Step 3: Structuring the Deal

Based on the analysis, the bank helps structure the transaction. For equity issuance, this involves deciding on the number of shares, pricing, and timing. For M&A, it includes valuation, offer structuring, and negotiations.

Step 4: Marketing and Distribution

The bank then markets the securities to investors through roadshows or syndicate offerings, aiming

to generate demand and optimize the terms.

Step 5: Closing and Post-Deal Support

Finally, the transaction is executed, with legal documentation finalized and securities issued or mergers completed. Post-deal, the bank may continue to advise or support the client.
