In fiction, dinosaurs are sometimes depicted as intelligent beings capable of teaching or conducting research, but scientifically, their brain sizes suggest they wouldn't have had the capacity for complex jobs like scientists or teachers. What role would a Velociraptor play in a modern team? In a playful or fictional context, a Velociraptor could be portrayed as a quick, alert team member, perhaps

excelling in roles requiring speed and agility, like messengers or scouts. Are there any fun, creative ways to imagine dinosaurs with jobs? Absolutely!
